

1st Annual Conference for Chinese Heritage Education

Topic: Teaching with Technology

Presenter: Lan-Chi (Ivy) Gauler

Abstract:

Teaching at heritage Chinese schools, our teachers get to meet with our students only once a week. How do we keep them interested in this language during the class hours? How do we help them with their Chinese language skills during the rest of the week? In this session, you are going to learn how I use technology to help my students with their Chinese language proficiency and keep our Chinese class fun.

Strategies:

Creating an Online Student Portfolio

Using iPad Apps to Create Lesson Videos

Using online free resources to make learning games

Using online free software to create interactive learning materials
